SUMMARY

Web developer with a broad background and high sense of organization in handling assigned projects. Good at identifying underlying problems, relaying with team members and providing user centered solutions. More than two years of freelancing experience where utmost priority is client satisfaction. Eager to leverage new skills to contribute to the growth of other organizations.

WORK / PROJECT EXPERIENCE

CareerFoundry

02.2022 - 11.2022

Full-Stack Web Developer Certification

- Built a portfolio website from scratch using; Trello, GitHub, HTML, and CSS
- Developed a Pokémon App with HTML, CSS, JavaScript, and bootstrap that loads data from an external API and enables the viewing of data points in details
- Built the server-side component of a "movies" web application with Node.js, Express, MongoDB and Heroku
- Built the client-side for an application called myFlix based on its existing server-side code (REST API and database). Tools: React, React Redux, Bootstrap
- Built a serverless, progressive web application (PWA) with React using a test-driven development (TDD) technique. The application uses the Google Calendar API to fetch upcoming events
- Built a chat app for mobile devices using React Native, Gifted chats and Google Firebase. The app provides users with a chat interface and options to share images and their location
- Used Angular and Material Design to build the client-side for the myFlix App based on its existing server-side code (REST API and database)
